EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dennis C. Rodgers on January 13, 2006.

The application has been amended as follows:

a. In claim 27, last line, examiner has deleted "." and inserted --; and wherein said tubular spacer has a greater cross section thickness at said protruding section.--.

b. In claim 31, line 15, after the term "arched" examiner has inserted --along the entire length of said tubular spacer--.

c. In claim 31, last three lines, examiner has deleted "; and wherein said protruding section is configured so that said innermost surface thereof is arched along an overall central axial direction of the tubular spacer".

d. In claim 48, line 16, after the term "arched" examiner has inserted --along the entire length of said tubular spacer--.

e. In claim 48, line 16, after the ";" examiner has inserted --and--.

f. In claim 48, last three lines, examiner has deleted "; and wherein said protruding section is configured so that an innermost surface thereof is arched along an overall central axial direction of the tubular spacer".

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach a differential unit having a bearing spacer with the claimed structural shape. For example, the Japanese reference 63-72915 teaches a bearing spacer (5) having a protruding section in the shape of an arch that extends in a radial direction towards a shaft. However, the Japanese reference does not teach the spacer having a greater cross section thickness at the protruding section (claim 27) or the protruding section being arched inwardly along the entire length of the tubular spacer (claims 31 and 48).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Joyce whose telephone number is (571) 272-7107. The examiner can normally be reached on Monday - Thursday 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Ridley can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
